## RESTAURANT TAKE-OUT ONLINE

With a lock-down on restaurant dining are you are trying to adapt? You may have a phone-in take-out already in place but would it help if you had an online ordering system that gave your customers all the menu options, receives the order, processes the payment, enables the customer to request a pick-up time, and automatically sends the order to a kitchen printer with the right details to prepare?

### ONLINE MENU

The online menu system provides the customer a set of categories and food item listings under each category. It includes your images, colors, and logo in an intuitive design.

### MENU OPTIONS

Menu options can include an unlimited number of item add-on selections with possible cost additions for each option. Use for ingredients, dressings, plate size, etc.

### ORDER PAYMENTS

When a customer selects their items and add-ons they checkout and make payment through a secure credit card payment system. The order is not passed to your kitchen until it's paid.

### PICK-UP TIMES

The customer selects the time they would like to pick-up the order. The times available can be set in an incremental schedule that fits your needs (15,20,30, etc minutes).

### ORDER PRINTING

You will be provided Windows or Mac software that immediately receives the order and automatically prints a kitchen friendly receipt with the order details for preparation.

### ORDER TRACKING

When the system receives an order and is automatically printed it leaves the order in a list enabling your staff to mark it as completed when the customer picks up.

### WEBSITE & FUNDING

You get your very own website, hosted on our servers. This website will hook to the payment gateway that is specific to your account. You will login and request funds at anytime.

### COSTS

We want to help now in this time of need, and be involved with your future of take-out. We will build your turn-key take-out website, including the menu with item options and all setup needed to accomplish the listed features.

**One Time Licensing**  
**\$200**

**Menu Setup**  
**\$250**

(includes most standard size menus)

**Monthly Fee**  
**\$199**  
**FIRST MONTH FREE**

**LIVE EXAMPLE**  
**TAKEOUT.LAPLAYAMAYA.COM**

La Playa Maya has four restaurants in Ft Worth, TX. They needed to adapt to the dining halls being closed and came to us for help. You can view their take-out menu online at <https://takeout.laplayamaya.com>

**LIVE EXAMPLE**  
**TAKEOUT.LAPLAYAMAYA.COM**

The screenshot shows a web browser window with the URL [takeout.laplayamaya.com](https://takeout.laplayamaya.com). The page features a "Take-Out Menus - Order Here - Pickup at Restaurant" section with a dropdown menu for "Stockyards | Southside | Westside". Below this, there are menu categories like "\*\*Margaritas and Beers\*\*", "Lunch Specials - Mon-Fri 11am-3pm", and "Lite Mex". The "Lite Mex" section lists items such as "Grilled Chicken Salad" (\$9.95), "Spinach Enchiladas" (\$9.95), "Mazatlan" (\$9.95), and "Filete a la Parrilla" (\$12.95), each with a "Select" button. On the right, a "MY ORDER" summary shows "Grilled Chicken Salad" with "Dressing" and "Ranch" for a subtotal of \$9.95. There are "View cart" and "Checkout" buttons. The background of the menu section shows a plate of food.
